Gunner is an energetic 7-yr-old from St. Joseph, MO. He has epilepsy & autism, along with other disorders. The therapies he has received for over 5 years have made a difference in his quality of life. Gunner is able to speak, write, & deal with sensory issues. He is in a regular classroom at school with his peers. Without therapy, he would not have a voice or be able to play & interact with family or peers. Gunner's autism diagnosis has made it possible for him to get these therapies. His parents want all children with disabilities to be able to get these therapies.
