Support SB45& HB 399!

Missouri law requires insurance to cover therapy for children with autism. Children with other disabilities do not get this coverage. Support this legislation so all children with developmental disabilities can get insurance coverage for their medically necessary therapies!

Lilly Rose is a bubbly 3-year-old who lives in Columbia, MO. She has Mowat Wilson syndrome. Currently, to gain life skills and independence, Lilly needs a minimum of 108 therapy sessions per year. Her insurance plan caps her at 30 sessions annually because she doesn't have the "right" diagnosis. Her parents are fortunate to be able to afford these therapies, but it has been a financial struggle.

Because of Lilly's intense therapy regimen, she has now taken her first independent steps and is self-feeding with a spoon. She is also beginning to use alternate communication devices to express herself and converse with others.
