Support SB45& HB 399!

Missouri law requires insurance to cover therapy for children with autism. Children with other disabilities do not get this coverage. Support this legislation so all children with developmental disabilities can get insurance coverage for their medically necessary therapies!

Will is an energetic 7-yr-old from Columbia, MO. He has partial agenesis corpus callosum. Through intensive physical, speech, and occupational therapies, Will has learned to walk and is beginning to speak.

Will's family has been fortunate to have some of his therapies provided through a county program, but it hasn't covered everything. They have had to make many sacrifices for him to get the support he needs. Without these therapies, Will would not be able to walk and play like he does today.
